We're Growing!

SFI has increased Field Service capacity for our Biopharmaceutical clients...

SFI is pleased to announce the addition of a dedicated Biopharmaceutical Field Service Technician and Supervisor with extensive field fabrication and supervision experience, with a special emphasis on electropolished, Bio-pharmaceutical vessels and equipment.

The demand for field fabrication, modification, and repair services by our Biopharmaceutical clients has been steadily increasing, and this addition bolsters our resources, improving our response times for these critical projects.

Services Include:

- Inspection/Evaluation of damaged or aging vessels
- Nozzle additions/replacements, including valves, manways, etc.
- Repair jacket leaks
- Additional jacketing and insulation
- Magnetic mixer plate, addition/replacement
- Material and weld finish repair and refurbishment including on-site electropolishing
- CIP/Riboflavin coverage testing
- Preventative maintenance programs
- Emergency service

Let us show you what we can do for you...
